

JOSE VILLALOBOS CASADO

FULL STACK DEVELOPER

PROFILE

Web, Mobile, Software and Game DEV.

I love to learn, being a big part of my background my own interest in new technologies, and never discarding an opportunity to learn something new or keep growing in the areas I already know.

As a self-taught person I enjoy new challenges, including adapting to new languages on the fly (possible thanks to my current knowledge base) to meet the requirements of a project.

I have always loved video games, and I aspire to one day be able to contribute my skills to this sector in a more active and visible way.

LANGUAGES

Spanish: Native
English: Full Professional Proficiency
